TimberTown

In the following pages, you'll find examples of the various components of your playground. It is important to note that since your playground is custom designed, it will not look exactly like this but will give you an idea of what to expect. It will meet all of the current safety (ASTM & CPSC) and accessibility ADA & ADAAG) requirements.

Several key components in the playground are geared to the development and inclusivity of people with varying abilities to help develop the tactile, auditory, vestibular, and proprioceptive systems. We designed multiple routes around and through the structures, allowing children of all levels of mobility access to a variety of exciting playground components. We have considered not only physical, but intellectual, social, and contemplative play elements. Grouping similar play components of differing levels of difficulty and access allows children of differing abilities to play side-by-side and gives users the opportunity to master an easier activity before progressing to a more difficult one.

Welcome to the TimberTown Reimagined project! This map serves as your guide to the exciting transformation of our beloved park.

Discover the planned refurbishments, replacements, and new additions, all aimed at creating a safe, accessible, and visually vibrant space. Using durable and colorful structured plastic, we're ensuring that the new elements will stand the test of time.

This community-driven initiative relies on volunteers like yourself to contribute to the grassroots effort of revitalizing TimberTown. Your involvement, via donations, or your time play a crucial role in shaping the future of our park - let's embark on this journey together!

Playground Components:

for the 5-12 Area!

TimberTown Community Playground

Chelsea, MI

#3 a, b, c, d

Benches (4)

Sponsorship Level: \$1,500 each

Relax and socialize on the Benches sprinkled throughout the playground on the ground level accessible route.

3 located in the 2-5 area and 1 located in the 5-12 area.

#4

Extreme Twisty Slide

Sponsorship Level: \$2,500

An open spiral slide that is a replacement within the existing structure. It is a component that offers not only vestibular stimulation, but also exercises your visual, tactile, cooperation, imaginative play and social skill development.

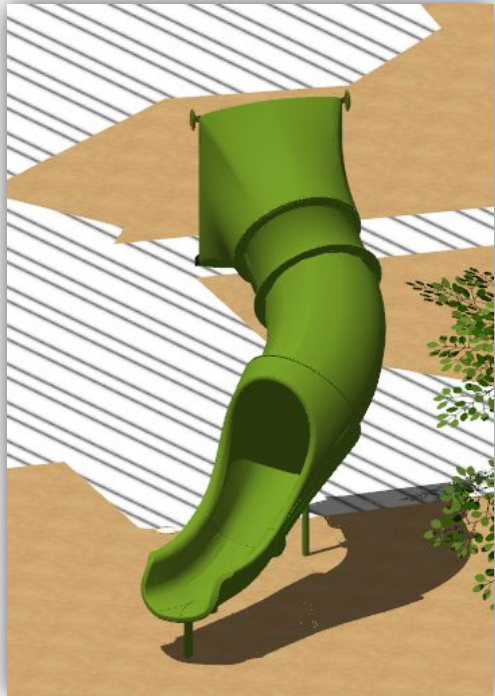

#6

Cobra Slide

Sponsorship Level: \$2,500

A twisting, turning, in and out of the light, and so much fun slide. A replacement within the existing structure. Fun aside, sliding has a variety of developmental benefits ranging from core strength and balance to taking turns and imagination.

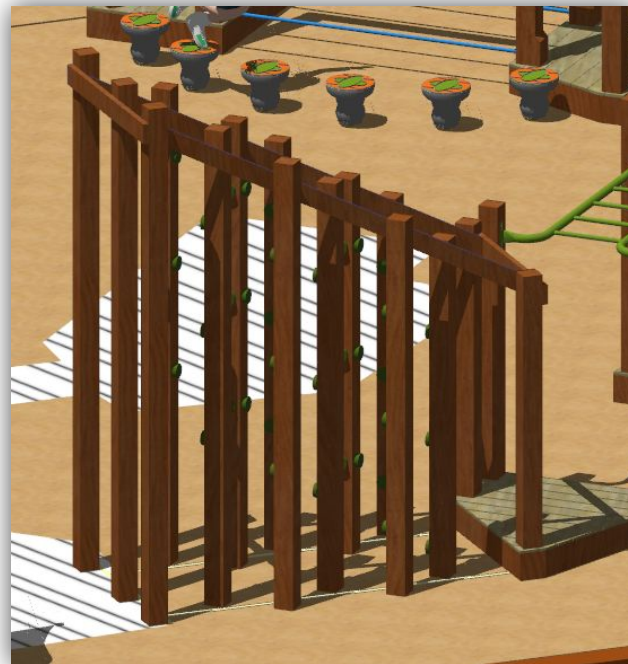

#7

Climbing Forest (Custom)

This unique custom climbing component allows you to travel from the new updated obstacle course to a higher deck within the existing main structure. Its physical feature promotes full body strength and coordination while offering sensory and social opportunities as well.

Sponsorship Level:
\$5,000

#8 Sponsorship Level: \$5,000

Bars, Ropes, Rings & 3-Wheel Spinner

Monkey Bars and High Low Rings provide an opportunity for children to hang, putting pressure on muscles and joints and helps develop the proprioceptive system. The **Spinning Monkey Bars** poses a fun challenge with spinning wheels with each wheel spinning 360 degrees. They develop upper body strength and coordination. **Tight Rope Walk** provides an opportunity to help children develop upper body strength and coordination. It's considered a Physical, Social and Sensory component. **Parallel Bars** promote balance and coordination.

#9

Step Hops (9)

A series of hops providing a linking connection in the agility circuit. They promote balance and coordination while incorporating imaginative play.

**Sponsorship
Level: \$2,500**

#10

Rev 8 Spinner

The play value is endless – users can push, spin, sit, run or climb. They won't realize they are honing important skills such as balance, coordination, and problem solving while working their visual, vestibular, proprioception, and tactile senses. With room for up to 25 children, there is enough space for everyone to play together. It is located along the ground level accessible route.

Sponsorship Level:

\$15,000

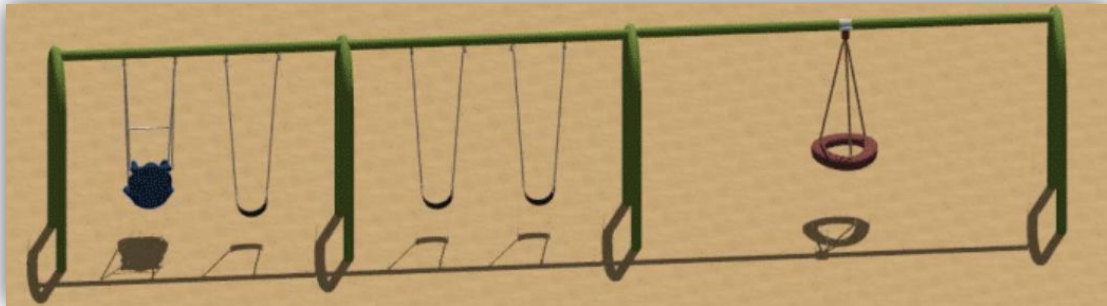

#11

Complete Swing Set 5-12 Area

Sponsorship Level: \$10,000

The whole group can swing together on the large disc-like seat! It is perfect for children of all abilities to interact and stimulates the vestibular system. It develops improvements in balance and posture and is located along the ground level accessible route.

Single Post Frame with Belt Swings, Tire Swing, Freedom Swing, and Konnection Swing!

#12

Verve IV Climber

Sponsorship Level: \$10,000

Vigor. Energy. Spirit. A climbing experience that encompasses all the meanings of its namesake with interesting, energetic design lines that provide random climbing paths. Choice is key and kids can choose to climb on the inside or outside, vertically, traverse or overhead. It promotes fun and challenges all of your systems.

#13

Rainbow Sambas

Sponsorship Level: \$5,000

With a friendly inviting vibe, this eye-catching set of five Rainbow Sambas are fun and easy to play. Considered a Sensory and Social component, whatever your age, they produce lots of creative musical energy! A group of friends can come together to drum; someone starts a beat, and the others either follow it or add their own thing.

#14

Orbit Merry-Go-Round

Universal design and ease of use characterize the Inclusive Orbit. Kids of all abilities will enjoy the spinning motion and ease of entry with the platform flush to the surfacing. From balance and coordination to vestibular stimulation and proprioception to cooperation and teamwork, children will develop necessary skills and have so much fun on this exciting, spinning social space! It is located along the ground-level accessible route within the school-aged area.

Sponsorship Level:
\$15,000

#15 Orb Rocker

Sponsorship Level: \$15,000

Located along the ground level accessible route in the school-aged area. There are four traditional seats and room for four more in the center. It provides opportunities for teamwork and collaboration, the Orb Rocker helps children develop skills that transcend the playground while having so much fun! It helps children develop socially, emotionally physically and cognitively all while having fun and getting exercise.

The logo for TimberTown reimagined is set against a background of concentric, semi-transparent circles in shades of light green and light blue. The word "Timber" is written in a large, bold, dark green sans-serif font. Below it, the word "TOWN" is written in a stylized, colorful font: the 'T' is red, the 'O' is a yellow house shape with a white circle inside, the 'W' is red, and the 'N' is yellow. At the bottom, the word "reimagined" is written in a dark green, lowercase, sans-serif font.

Playground Components:

"TotTown" for 2-5 year-olds!

TimberTown Community Playground

Chelsea, MI

#16

Musical Flowers (4)

Sponsorship Level: \$5,000

All children enjoy exploring the sounds of music. Outdoor musical instruments encourage children and adults to hear and make music. At the same time, it promotes listening, language, math, and science skills. Each color features four different notes that sound like soft gongs. It's situated along the ground level route in the music and sensory area at the entrance of the playground.

#17

Turtle and Snail Rider

Sponsorship Level: \$2,500

An opportunity for children to let their imaginations soar while developing balance, coordination, cooperation and core strength. They are located in the toddler area along the ground level accessible route.

**Sponsorship Level:
\$5,000**

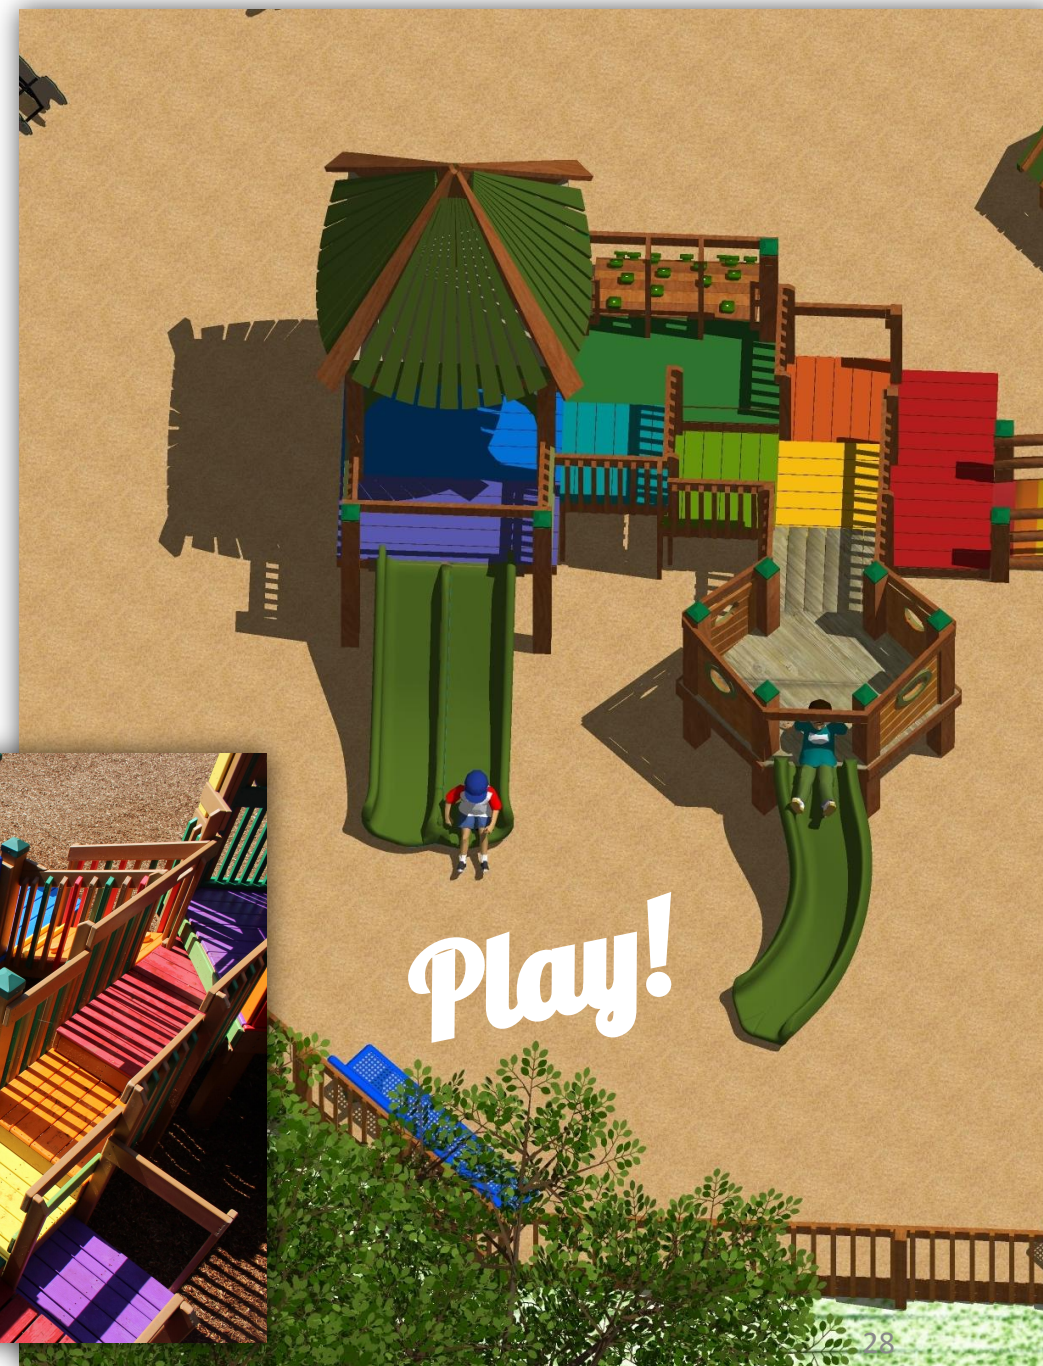

#21

Custom Playhouse & Rainbow Stairs

(See next page for more example of the Custom Playhouse.)

A cognitive, imaginative space that is perfect for children to pretend and engage and move through. The Playhouse is a custom architectural element located in the toddler area. It is the highest point of the playground structure (about 4' above the safety surface). It is accessible by transfer and can also be accessed by an arched rock climb at the ground level or the rainbow deck stairs.

Sponsorship Level: \$15,000

Custom Playhouse - examples

#22

Curve & Luge Slides

Sponsorship Level: \$5,000

The **Curve Slide** can't be tamed, but kids love trying! It's exciting twisty and fast serpentine action is guaranteed to generate incredible high-energy fun and safe, healthy play. It's located as a quick exit from the main structure in the toddler area. It's situated along the transfer accessible route at the top and along the ground level accessible route at the exit. The **Double Slide** allows kids to race each other down to the bottom that makes kids want to slide again and again! It is located off the side of the Playhouse as a quick escape to the safety surface below. It is accessible by transfer on the upper level and exits along the ground level accessible route.

#23

Custom River Boat

The custom river boat provides opportunity for imaginative play. It is set off the ground allowing for play underneath (*underwater*). It is accessible from the arch climber, and the rainbow steps. The double slide that is attached to the side, offers opportunity for social interactions with other kids.

Sponsorship Level: \$5,000

#24

Custom Daisy Hops & Snake Balance

Sponsorship Level: \$5,000

A series of daisy-shaped hops providing a linking connection in the agility circuit. They promote balance and coordination while incorporating imaginative play. A custom-built snake shaped balance walk is part of the agility circuit allowing for continuous play encouraging balance and coordination. It's considered a Physical play component, but also offers an opportunity to add associative, solitary, and especially imaginative play.

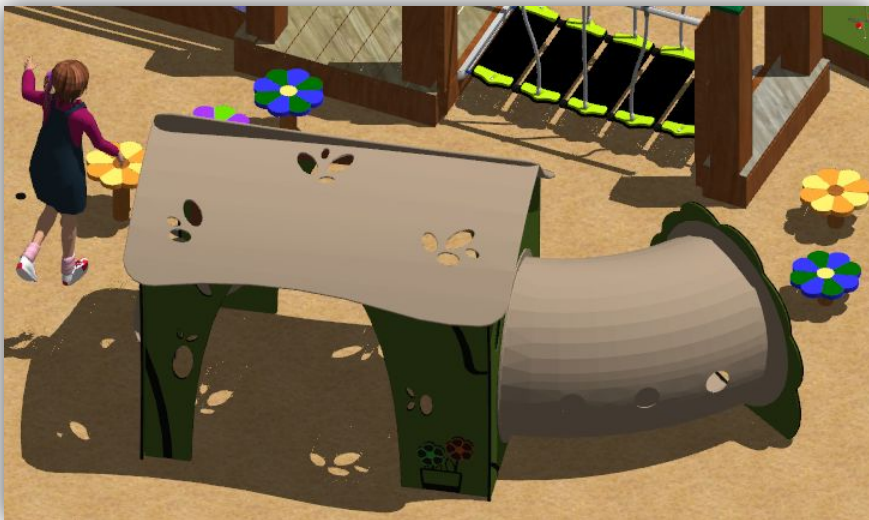

#25

Tot Playhouse With Tunnel

Sponsorship Level: \$10,000

A cognitive, imaginative space that is perfect for children to pretend, engage or find a quiet space when they need it. This whimsical, fun play area helps children develop skills such as cooperation, creative problem solving and empathy.

Created for children of all abilities, the door is wide enough for a wheelchair to enter and engage in the fun of imagination. It is located along the ground level accessible route in the toddler area.

Thru-way!

#26

Suspension Bridge & Net Traverse

Sponsorship Level: \$10,000

A plank-type bridge which is part of the agility circuit in the Toddler Area. It allows for continuous play and is considered a physical play component by encouraging balance and coordination. It also offers an opportunity to add associative or solitary play. The Net Traverse is a low and horizontal cable bridge which is part of the toddler agility circuit.

#27

Custom Tunnel

Sponsorship Level: \$2,500

The tunnel can help children develop their gross motor skills, promoting imaginative play. It is located within the agility circuit of the toddler area.

SPONSORED!

#28

Custom Rainbow Arch Bridge

Sponsorship Level: \$5,000

The rainbow arch bridge, is a little preview of what's to come as it leads to the "magical" rainbow deck stairs. The changing colors can help children learn colors too. Color changes can also provide sensory input such as help with depth perception. In addition, there is an arch, which is great for balance in young toddlers and provides additional challenge to older children.

#29

Custom Arch Rock Climb

Sponsorship Level: \$5,000

It is located within the agility circuit of the toddler area and provides movement, agility, and reaction skills

Reach!

The logo for TimberTown reimagined is set within a circular frame with a light blue outer ring and a light green inner ring. The word "Timber" is in a dark green, bold, sans-serif font.
